

TRUSTED BY THE US NAVY

Ship 2 Shore is changing the way industry leaders mitigate corrosion. Our innovative line of corrosion inhibitors are non-HAZMAT, easy-to-apply and proven to withstand the most extreme environments. Available in liquid, paste, wrap and wipes to protect all areas of ships, both internal and external.

Quicker.

- Easy-to-apply, sailor approved
- Minimal surface preparation (SP 2 or SP 3)
- Polar bonds to all metal surfaces including bare, rusted, painted and damp
- No curing, works instantly
- Can be applied in inclement weather

Better.

- MIL-PRF 16173 approved
- Displaces water and oxygen
- Prevents bimetallic corrosion
- Does not harden or crack
- Works in both internal and external areas of ships

Safer.

- Ultra low VOCs
- Non-HAZMAT
- Does not sustain burning
- Application does not require entry into confined spaces
- Discharge water quality meets California EPA objectives

DEFENSE

INNOVATIVE CORROSION SOLUTIONS

CPC 500

Excellent penetrant, lubricant and corrosion inhibitor (lasts over 500 hours in salt spray chamber). 36kV dielectric strength prevents bimetallic corrosion. Provides a 1-2 mil, transparent wet film. Apply by spraying. Can be atomized or float coated into voids.
NSN: 8030-01-347-0971 (5 gal. pail)
NSN: 8030-01-396-5734 (55 gal. drum)

SAILOR PASTE

CPC500 infused into a paste. Provides a thick, long lasting protective barrier. Can be top-coated with polysiloxane paint. Apply by brushing, rolling or spreading.
Size: 1 Quart
Colors: White, Grey, Black, Terracotta

SAILOR WIPES

CPC500 infused into a durable, disposable wipe. Cleans and polishes metal surfaces while providing a protective micro-barrier that is dry to the touch. Apply by wiping.
NSN: 8030-01-710-5430 (box of 10)

SAILOR PUTTY

CPC500 infused into a petrolatum tape. Pliable, waxy finish conforms to irregular shapes. Does not sag. Prevents bimetallic corrosion. Apply by wrapping. No primer paste required. Easy to remove for spot checks. Can be top-coated with polysiloxane paint.
Size: Rolls of 2"x10', 4"x10', 6"x10', 8"x10'
Colors: White, Grey, Black, Terracotta

S2S STARTER KIT

Everything you need to quickly transform the appearance of your vessel and stop corrosion in its tracks.
Includes: 2 pails CPC500; 4 containers Sailor Paste; 32 rolls Sailor Putty; 1 case Sailor Wipes; 1 Heavy Duty Tool Backpack, 1 Graco Cordless Spray Gun; 1 box Nitrile gloves; 2 pair Scissors, 1 Polysiloxane Cleaning Kit.
